github.com/HarshadJadhav5   /linkedin.com/in/harshadjadhav5/

SKILLS

- HTML, CSS, JavaScript, React, Python, ML, Stream lit,
- SQL, Git
- AI-assisted development, LLM integration and working with JSON
- Experience with AI tools (ChatGPT, Claude) and prompt engineering

EXPERIENCE

Data Science and Machine Learning Intern | Phonologies   JUN 2025 – SEP 2025

- Worked with an existing ML pipeline for customer upsell/cross-sell modelling
- Refactored codebase to separate upsell and cross-sell logic for modular execution and better maintainability
- Modified Streamlit interface to allow user selection of flow (upsell, cross-sell, or both), dynamically generating reports and visualizations.
- Built interactive charts analyses using pandas and plotly.express.
- Integrated LLM to get insights to explain recommendations and support decision-making

Customer Support Intern | Flo Mattress   NOV 2023 – APR 2024

- Handled customer inquiries, complaints, and product support efficiently via email and chat, ensuring high levels of customer satisfaction.
- Resolved customer issues promptly, fostering strong relationships and repeat business
- Collaborated with sales and logistics teams to guarantee timely deliveries and optimal service operations.

PROJECTS

Second-hand Goods Website with Machine Learning Price Prediction

- Checkout the project here: https://harshadproject.infinityfree.me
- Developed a web platform for buying and selling used goods. Integrated a Machine Learning model to predict the fair price of products in the second-hand goods market
- For Front-End I used JavaScript, CSS, HTML and for Back-End I used Flask, Python, PHP.
- Used Google Collab for model development and regression techniques for price prediction
